About the Fair Housing Project of Legal Aid of North Carolina

The Fair Housing Project of Legal Aid of North Carolina works to eliminate housing discrimination and to ensure equal housing opportunity for all people through education, outreach, public policy initiatives, advocacy and enforcement.

Legal Aid of North Carolina is a statewide, nonprofit law firm that provides free legal services in civil matters to low-income people in order to ensure equal access to justice and to remove legal barriers to economic opportunity.

I. Executive Summary

Discrimination based on disability and race continued to account for the vast majority of housing discrimination complaints filed in North Carolina in 2019.

In 2019, a total of 160 fair housing complaints were filed statewide. Nearly two-thirds of these (98 complaints, making up 61.3% of those filed) were filed in just five counties: Durham (26), Mecklenburg (24), Wake (15), Guilford (14), and Forsyth (11). In 34 other counties, between 1 and 8 complaints were filed, while the remaining 61 counties in North Carolina did not have any fair housing complaints filed in 2019.

The most common bases for complaints filed in 2019 were disability (92 complaints filed or 57.5%), race (53 or 33.1%), national origin (21 or 13.1%), sex (20 or 12.5%), familial status (12 or 7.5%), and retaliation (12 or 7.5%).

Between 2000 and 2019, a total of 3,617 fair housing complaints were filed in North Carolina, an average of 180.9 per year. The most common basis of discrimination alleged in complaints during this period was racial discrimination (1,494, or 41.3%), followed by disability (1,370, or 37.9%), national origin (653, or 18.1%), familial status (503, or 13.9%), and sex (447, or 12.4%).¹

The five counties with the most complaints filed between 2000 and 2019 were Mecklenburg (627 complaints), Durham (531), Guilford (354), Wake (301), and Forsyth (229). Overall, an average of 37.9 complaints were filed per 100,000 people in North Carolina during the period 2000-2019. The five counties with the most complaints filed on a per capita basis were: Durham (196.7 complaints per 100,000 people), Orange (108.4), Buncombe (87.3), Guilford (72.5), and Mecklenburg (68.2).

Although race discrimination was the most common basis of discrimination alleged in complaints filed between 2010 and 2104 (alleged in 37.5% of complaints filed during the period), during the 2015-2019 period, complaints alleging disability discrimination outnumbered complaints alleging race discrimination (disability complaints comprised 55.0% of complaints during 2015-2019, while 31.9% alleged race discrimination).

Studies have shown that housing discrimination is vastly underreported and that millions of incidences of discrimination occur each year.² Underreporting can occur for a variety of reasons,

¹ Because complaints can raise more than one basis of discrimination (such as race and disability), the percentage of complaints by basis is greater than 100%.

² See, e.g., Harvard T.H. Chan School of Public Health, "Discrimination in America: Final Summary," pp. 11-12 (45% of Black Americans, 31% of Latinos, and 25% of Asian Americans reported personally experiencing racial or ethnic discrimination when trying to rent or buy); Martin D. Abravanel, "Do We Know More Now?: Trends in Public Knowledge, Support and Use of Fair Housing Law," February 2006, p. iii ("four of every five persons who believed they had experienced housing discrimination" did not take any action in response"); U.S. Department of Housing and Urban Development, "The State of Fair Housing: FY 2006 Annual Report on Fair Housing," p. 7 ("Only one percent of individuals who believed they experienced housing discrimination reported it to a government agency"); National Fair Housing Alliance, "2004 Fair Housing Trends Report," 4/7/2004, p. 4 (finding 3.7 million instances of housing

including a lack of education about fair housing rights and enforcement procedures, resources available to assist victims of discrimination, fear of retaliation, and/or are facing other pressing life demands.

discrimination annually based on race and national origin); Martin D. Abravanel and Mary K. Cunningham, "How Much Do We Know?: Public Awareness of the Nation's Fair Housing Laws," April 2002, p. ix (finding 14% of adults surveyed believed that they had experienced housing discrimination in their life, but only 17 percent of them took any action as a result).

II. Fair Housing Laws in North Carolina

In North Carolina, fair housing laws are found at the federal, state, and, in some jurisdictions, local level.³ Which law(s) apply in a particular situation generally depends on where the alleged housing discrimination occurred. A brief summary of the fair housing laws in North Carolina, as well as the enforcement process, is provided below.

a. Federal Fair Housing Act

On April 11, 1968, seven days after the assassination of Dr. Martin Luther King, Jr., President Lyndon B. Johnson signed, the federal Fair Housing Act (42 U.S.C. § 3601, *et seq.*), Title VIII of the Civil Rights Act of 1968. The federal Fair Housing Act (“federal FHA”) was enacted with two broad mandates: (1) to prohibit discrimination in housing; and (2) to promote integrated housing patterns through a requirement that the federal government administer programs and activities in a manner that affirmatively furthers fair housing.⁴

The federal FHA initially prohibited discrimination in the rental or sale of housing because of race, color, religion, and national origin. Congress amended the FHA in 1974 to prohibit discrimination based on sex,⁵ and in 1988 to prohibit discrimination based on familial status and disability.⁶ The provisions relating to race, color, religion, national origin, and sex prohibit discrimination against or in favor of a person based on his or her membership in one of these particular groups.

The term “familial status” is defined under the FHA to mean one or more individuals less than 18 years of age living with a parent, legal custodian, or designee of such a parent or legal custodian. This provision also protects individuals who are in the process of securing legal custody of minor and women who are pregnant.⁷

A “disability” is defined under the federal FHA as a physical or mental impairment that substantially limits one or more major life activity, a record of having such an impairment, or being regarded as having such an impairment.⁸ Major life activities include seeing, walking, reaching,

³ In addition to federal, state, and local fair housing laws discussed herein, several other federal statutes protect individuals from discriminatory housing practices. These statutes include: the Civil Rights Act of 1866 (42 U.S.C. § 1981 and § 1982), the Americans with Disabilities Act (ADA) (42 U.S.C. § 1201, *et seq.*), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794), and Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d, *et seq.*).

⁴ See 42 U.S.C. § 3608 (HUD “shall administer their programs and activities relating to housing and urban development ... in a manner affirmatively to further the purposes of [the Fair Housing Act].”).

⁵ On February 11, 2021, HUD announced that “effective immediately,” it would “administer and fully enforce the Fair Housing Act to prohibit discrimination because of sexual orientation and gender identity” as types of “sex discrimination,” consistent with the U.S. Supreme Court’s decision *Bostock v. Clayton County, Georgia*, 140 S. Ct. 1731 (2020), interpreting nearly identical language in Title VII.

⁶ The federal FHA uses the term “handicap,” and the state FHA uses the term “handicapping condition,” instead of “disability.” The terms have the same legal meaning. See *e.g.*, *Bragdon v. Abbott*, 524 U.S. 624, 631 (1998) (noting that the definition of “disability” in the Americans with Disabilities Act is drawn almost verbatim “from the definition of ‘handicap’ contained in the Fair Housing Amendments Act of 1988”). This report uses the term “disability,” which is more generally accepted.

⁷ 42 U.S.C. § 3602(k).

⁸ 42 U.S.C. § 3602(h).

lifting, hearing, speaking, caring for self, interacting with others, learning, etc. The federal FHA prohibits discriminatory housing practices because of the disability of an individual buyer or renter, a person residing in or intending to reside in a dwelling after it is sold or rented, or of any person associated with a buyer or renter.⁹

The FHA makes it unlawful,¹⁰ because of one the categories protected by the statute, to:

3604(a)	• Refuse to sell or rent a dwelling
	• Refuse to negotiate for the sale or rental of a dwelling
	• Otherwise make unavailable or deny a dwelling
3604(b)	• Discriminate in the terms, conditions, or privileges of the sale or rental of a dwelling
	• Discriminate in the provision of services or facilities in connection with a dwelling
3604(c)	• Make, print, or publish discriminatory advertising in connection with the sale or rental of a dwelling
	• Make, print, or publish statements that indicate a discriminatory preference or limitation in connection with the sale or rental of a dwelling
3604(d)	• Misrepresent the availability of a dwelling
	• State a unit is not available when it is in fact available
3604(e)	• Engage in blockbusting ¹¹
	• Engage in steering
3604(f)	• Refuse to permit a reasonable accommodation for a person with a disability
	• Refuse to permit a reasonable modification for a person with a disability
	• Fail to design and construct multi-family housing with certain accessibility features
3605	• Discriminate in the financing of residential real estate transactions
	• Discrimination in the provision of brokerage services
3617	• Coerce, intimidate, threaten, or interfere with a person exercising his or her FHA rights
	• Retaliate against an individual for exercising his or her rights under the FHA

The federal FHA can be enforced by the U.S. Department of Justice, the U.S. Department of Housing and Urban Development (HUD), and through private complaints and lawsuits brought by individuals or organizations that have experienced discrimination.

⁹ 42 U.S.C. § 3604(f)(1)-(f)(2).

¹⁰ There are certain limited circumstances in which a property may be exempt from the protections of sections 3604(a), (b), (d), (e), and (f) of the FHA.

¹¹ “Blockbusting” generally refers to the practice of encouraging homeowners to sell their homes quickly by creating a fear that members of minority group are moving into a particular neighborhood.

b. North Carolina State Fair Housing Act

In addition to the protections under the federal FHA, North Carolinians are also protected from housing discrimination under the North Carolina State Fair Housing Act (N.C. Gen. Stat. § 41A-1, *et seq.*) (“State FHA”). The State FHA continues to be certified by HUD as “substantially equivalent” to the federal FHA. Although substantially similar, the State FHA provides a few significant additional areas of protection beyond those provided under federal law:

1. The State FHA includes an additional protected class that is not included in the federal FHA, making it unlawful to discriminate in land use decisions, or in the permitting of development, because “a development or proposed development contains affordable housing units for families or individuals with incomes below eighty percent (80%) of area median income.”¹²
2. The State FHA makes clear that discrimination may be established under two alternate theories of liability: (1) disparate treatment (intentional discrimination), or (2) disparate impact (discriminatory effect).¹³ Although disparate impact theory has long been recognized by courts as part of the federal FHA,¹⁴ and HUD published a disparate impact rule in 2013, this standard is explicitly included within the State FHA itself.¹⁵
3. The State FHA explicitly allows a fair housing enforcement organization to file a complaint “on behalf of a person who claims to have been injured by or reasonably believes he will be irrevocably injured by an unlawful discriminatory housing practice.”¹⁶ Although organizational standing to bring fair housing complaints has long been recognized by courts as permitted under the federal FHA,¹⁷ this right is explicitly provided for in the State FHA.
4. Finally, the State FHA covers certain single family homes that are exempted under the federal FHA. The federal FHA exempts the sale or rental of a single family home when certain conditions are met, including (a) the owner does not own more than three single-

¹² N.C. Gen. Stat. § 41A-4(g).

¹³ N.C. Gen. Stat. § 41A-5(a). Under disparate impact theory, a housing practice may violate the federal and State FHA if it has a discriminatory effect that actually or predictably disproportionately impacts a group protected by the Act, or creates or perpetuates segregated housing patterns because of race, color, religion, sex, disability, familial status, or national origin. A practice may violate the FHA even if it was not motivated by discriminatory intent. A challenged practice may be lawful if supported by a legally sufficient and narrowly tailored justification.

¹⁴ See *Texas Dep't of Hous. & Cmty. Affairs v. Inclusive Communities Project, Inc.*, 135 S. Ct. 2507 (2015); *Edwards v. Johnston County Health Dept.*, 885 F.2d 1215 (4th Cir. 1989); *Huntington Branch, N.A.A.C.P. v. Town of Huntington*, 844 F.2d 926 (2d Cir. 1988), *judgment aff'd*, 488 U.S. 15 (1988); *Betsey v. Turtle Creek Associates*, 736 F.2d 983 (4th Cir. 1984); *Metropolitan Housing Development Corp. v. Village of Arlington Heights*, 558 F.2d 1283 (7th Cir. 1977).

¹⁵ In 2013, HUD issued a Disparate Impact final rule. 78 *Federal Register* 11460 (Feb. 15, 2013). HUD's 2020 attempt to rescind the 2013 rule was blocked by a October 25, 2020, federal court nationwide preliminary injunction. On April 13, 2021, HUD announced that it was moving to reinstate the 2013 rule.

<https://www.reginfo.gov/public/do/eoDetails?rrid=162113>.

¹⁶ N.C. Gen. Stat. § 41A-7.

¹⁷ See, e.g., *Havens Realty Corp. v. Coleman*, 455 U.S. 363 (1982).

family homes at any one time, and (b) the sale or rental is done without the use of advertising or real estate broker.¹⁸ The State FHA does not contain this exemption.¹⁹

The North Carolina Human Relations Commission (NCHRC) is authorized to enforce the State FHA and is certified by HUD as a “substantially equivalent” agency, receiving federal funding under the Fair Housing Assistance Program to, among other tasks, investigate, and attempt to resolve fair housing administrative complaints.²⁰ The State FHA may also be enforced through private lawsuits brought by individuals or organizations that have experienced discrimination.

c. Local Fair Housing Ordinances

Five jurisdictions in North Carolina – the City of Durham, the City of Greensboro, the City of Winston-Salem, Orange County, and the City of Charlotte-Mecklenburg County – have local fair housing ordinances that have also been certified by HUD as “substantially equivalent” to the federal FHA. As with the NCHRC, these jurisdictions receive federal funding under the Fair Housing Assistance Program to, among other tasks, investigate and attempt to resolve complaints.²¹

The Orange County, NC, local fair housing ordinance is broader than the state and federal fair housing acts, making it unlawful to discriminate in housing because of age and veteran status.²² In addition, in January 2021, the City of Durham amended its fair housing ordinance to prohibit discrimination based on “military status, sexual orientation, gender identity, or protected hairstyle.”²³ The City of Greensboro also amended its fair housing ordinance in January 2021 to prohibit discrimination based on “sexual orientation, gender expression, or gender identity,” and further clarified that race and national origin discrimination includes discrimination based on “hair texture and hairstyles that are commonly associated with race or national origin.”²⁴

d. Fair Housing Complaint Process

Under the federal FHA, individuals who have experienced housing discrimination may file an administrative complaint with HUD, a civil suit in court, or both. Because the State FHA and five local fair housing ordinances have been designated by HUD to be “substantially equivalent” to the federal FHA, virtually all administrative complaints in North Carolina filed with HUD will be referred to the NCHRC or to one of the five substantially equivalent local fair housing enforcement agencies for investigation and potential resolution. In addition to investigating cases referred by

¹⁸ 42 U.S.C. § 3603(b)(1).

¹⁹ N.C. Gen. Stat. § 41A-6.

²⁰ See 42 U.S.C. § 3610(f); 24 C.F.R. § 115.200.

²¹ The NCHRC does not have jurisdiction over complaints alleging that discrimination occurred within the geographical area of these five jurisdictions. In addition, a number of other jurisdictions, including the Cities of Raleigh and Fayetteville, have local fair housing ordinances that have not been certified as substantially equivalent to the federal FHA. These ordinances are beyond the scope of this report.

²² See Orange County Civil Rights Ordinance §§ 12-6 & 12-9.

²³ City of Durham Code of Ordinances §§ 34-3 & 34-47.

²⁴ Greensboro City Code § 12-132.

HUD, the NCHRC, as well as the five local “substantially equivalent” fair housing agencies, accepts complaints of housing discrimination filed with them directly.

Once the NCHRC, or one of the five “substantially equivalent” local fair housing enforcement agencies, receives a complaint of housing discrimination, the complaint will be assigned to an investigator. The specific procedures for claims filed with a local fair housing agency, including the five local agencies that have been deemed “substantially equivalent,” will vary depending on the local fair housing ordinance. However, the following is a general outline of the process.

Throughout the investigation, the agency maintains a neutral position. The investigator researches the allegations in the complaint, speaks with the parties and witnesses, and reviews any available documentation in order to determine whether there are reasonable grounds to believe housing discrimination has or is about to occur.²⁵ The agency also attempts to conciliate fair housing complaints whereby the parties attempt to find a mutually satisfactory resolution to the matter. If a settlement cannot be reached, the agency completes its investigation and issues a determination.²⁶

If the agency finds that reasonable grounds exist to believe that an unlawful discriminatory housing practice has occurred or is about to occur, the parties have a final chance to attempt to resolve the matter through the conciliation process. If the matter cannot be resolved, the agency will issue a conciliation failure letter.

Under the State FHA, following a conciliation failure, the parties may then elect to have the matter decided in a civil action commenced and maintained by the NCHRC. If a civil court election is not made, then the NCHRC will refer the case to the Director of the Office of Administrative Hearings for the designation of an administrative law judge to preside at a hearing of the case.²⁷

²⁵ The NCHRC has the authority to access the premises, records, documents, individuals, and other evidence or possible sources of evidence and may examine, record, and copy such materials and take and record the testimony or statements of such persons as are reasonably necessary for the furtherance of the investigation. See N.C. Gen. Stat. § 42A-8(a). The NCHRC is also authorized to issue subpoenas to compel access to or the production of such materials, or the appearance of such persons, as well as issue interrogatories to a respondent to the same extent and subject to the same limitations as would apply if the subpoenas or interrogatories were issued or served in aid of a civil action in the general court of justice. *Id.* at § 42A-8(b).

²⁶ N.C. Gen. Stat. § 42A-7(e). HUD has issued guidance interpreting “reasonable cause” under the federal FHA. See Lester, General Counsel, Memorandum, *Reasonable Cause* (June 15, 1999), <http://www.fairhousingnc.org/wp-content/uploads/2013/07/HUD-Reasonable-Cause-Guidance.pdf>

²⁷ N.C. Gen. Stat. § 41A-7(k)-(l).

III. Demographics of the Region

Our federal, state, and local fair housing laws protect all people from discrimination. The protections of these laws, however, focus on groups that have historically faced discrimination and been excluded from housing.

a. Geographic Scope Covered

This report covers the state of North Carolina. The report provides detailed information on a five-county focus area (Durham, Forsyth, Guilford, Mecklenburg, and Orange) where there are local ordinances that have been certified by HUD as “substantially equivalent” to the federal FHA (“five-county focus area”).²⁸ The report further includes aggregate data on the remaining 95 counties, identified as “Balance of State,” which roughly corresponds to the area under the jurisdiction of the NCHRC.

b. Total Population

In 2019, the total population of the State of North Carolina was 10,488,084, a 30.3% increase since 2000. Changes in population within the five-county focus area during that same period varied from a 59.7% total population increase in Mecklenburg County to a 24.9% increase in Forsyth County. As of 2019, the five-county focus area accounted for 23.8% of the total state population, whereas 76.2% of the population lived in an area accounted for in the Balance of State.²⁹

Table 1: Total Population of North Carolina.

	2000		2010		2019	
	Number	% of Total Population	Number	% of Total Population	Number	% of Total Population
State of North Carolina	8,049,313	100.0%	9,535,483	100.0%	10,488,084	100.0%
Durham County	223,314	2.8%	267,587	2.8%	321,488	3.1%
Forsyth County	306,067	3.8%	350,670	3.7%	382,295	3.6%

Mecklenburg County	695,454	8.6%	919,628	9.6%	1,110,356	10.6%
Orange County	118,227	1.5%	133,801	1.4%	148,476	1.4%
Balance of State	6,285,203	78.1%	7,375,391	77.3%	7,988,295	76.2%

Source: U.S. Census Bureau, 2000 Census; 2010 Census; 2019 American Community Survey 1-Year Estimates. See Appendix E for instructions regarding data comparisons.

c. Race of Population

North Carolina has become more racially diverse since 2000. The percentage of the population that was white decreased, from 72.1% in 2000 to 68.1% in 2019. Although the percentage of the population that was African Americans has remained virtually unchanged (from 21.6% in 2000 to 21.5% in 2019), the percentage of the population that identified as two or more races doubled

²⁸ Data is provided in this report on a county basis, even though a local substantially equivalent fair housing ordinance may only have jurisdictional coverage of a city within a particular county.

²⁹ The Balance of State includes several major population centers, including Wake County, New Hanover County, Cumberland County, and Buncombe County.

during this time period, from 1.3% in 2000 to 2.8% in 2019. Individuals who identified as “other” also increased during this time period, from 2.3% to 3.4%. Asian Americans and Pacific Islanders also doubled from 1.5% to 3.0%.

Table 2: Race of Population of North Carolina.

	2000		2010		2019	
	Number	% Total	Number	% Total	Number	% Total
White	5,804,656	72.1%	6,528,950	68.5%	7,144,510	68.1%
African American/Black	1,737,545	21.6%	2,048,628	21.5%	2,253,481	21.5%
Asian American/Pacific Islander	117,672	1.5%	215,566	2.3%	316,783	3.0%
Native American/Alaska Native	99,551	1.2%	122,110	1.3%	126,708	1.2%
Two or More Races	103,260	1.3%	206,199	2.2%	295,137	2.8%
Other	186,629	2.3%	414,030	4.3%	351,465	3.4%
Total Population	8,049,313	100.0%	9,535,483	100.0%	10,488,084	100.0%

Source: U.S. Census Bureau, 2000 Census; 2010 Census; 2019 American Community Survey 1-Year Estimates. See Appendix E for instructions regarding data comparisons.

Within the five-county focus area, the percentage of the population that was white decreased from 64.2% in 2000 to 56.3% in 2019. Overall, the percentage of African Americans in this area increased from 28.3% in 2000 to 30.7% in 2019. The percentage of the population that was African American in 2019 was higher in Durham (35.6%), Guilford (34.3%), Mecklenburg (31.7%) and Forsyth (26.4%) counties, than in the state as a whole (21.5%).

The percentage of Asian Americans and Pacific Islanders doubled in this five-county focus area, from 2.7% in 2000 to 5.1% in 2019. The percentage of the population that identified as Asian Americans and Pacific Islanders was higher in Orange County (8.1%) than in the other four counties evaluated in the focus area. Appendix A contains more detailed five-county focus area data on race.

d. National Origin

The Hispanic/Latino population in North Carolina more than doubled from 4.7% in 2000 to 9.8% in 2019. This was similar to the Hispanic/Latino population growth in the five-county focus area, where the Hispanic/Latino population cumulatively increased from 5.8% in 2000 to 12.2% in 2019. Hispanics/Latinos made up the largest share of the population in Mecklenburg (13.8%), Durham (13.7%), and Forsyth (13.3%) counties, while the rates were substantially lower in Orange (8.6%) and Guilford (8.4%) counties.

Table 3: Hispanic or Latino/a Population.³⁰

The percentage of the foreign born population in North Carolina, who would be protected under the fair housing protections prohibiting discrimination based on national origin, was 8.4% in 2019, up from 5.3% in 2000. The five-county focus area accounted for 38.3% of the North Carolina foreign-born population in 2019, up from 35.0% in 2000.

In 2019, Durham, Guilford, Mecklenburg, and Orange counties all had higher percentages of their population identify as foreign born than the state average, with Durham (16.0%), Mecklenburg (15.8%), and Orange (12.2%) counties having the highest rates. At 8.1%, Forsyth was the only county with a smaller percentage of foreign born residents than the statewide average in 2019. The foreign-born population in the Balance of State accounted for only 6.8% of the total population in these 95 counties.

The percentage of the population in North Carolina that identified as Limited English Proficient (LEP), who speak English “less than very well” and who would also be protected under the fair housing protections prohibiting discrimination based on national origin, increased slightly from 4.0% in 2000 to 4.4% in 2019. In the 95 counties that make up the Balance of State, the percentage of the population identified as LEP increased from 2.7% in 2000 to 3.6% in 2018.

³⁰ According to the Census Bureau, “Hispanic” and “Latino” are not racial designations, and individuals may be of any race.

The percentage of the population within the five-county focus area that identified as LEP decreased from 8.5% in 2000 to 7.0% in 2019. In this area, only Mecklenburg County saw an increase in the percentage of its population that identified as Limited English Proficient, from 6.7% in 2000 to 8.5% in 2019; in Durham and Forsyth the percentage decreased during this period, while in Guilford and Orange, the rates have fluctuated from 2000 to 2019.

Table 5. Percent of Population 5 Years and Older that is Limited English Proficient.

e. Families with Children

In 2019, 29.9% of households in North Carolina contained an individual less than 18 years of age, a decrease from 35.3% of households in 2000. Within the five-county focus area, 29.5% of households in 2019 contained an individual under 18 years of age, with Orange County having the lowest share of its population (25.5%) and Guilford County having the highest (31.5%).

Table 6: Households with Individuals Under 18 Years of Age.

	2000		2010		2019	
	Number	% Total	Number	% Total	Number	% Total

Balance of State	867,564	35.7%	964,333	33.7%	922,425	30.0%

Source: U.S. Census Bureau, 2000 Census; 2010 Census; 2019 American Community Survey 1-Year Estimates. See Appendix E for instructions regarding data comparisons.

f. Disability Status

In 2019, 13.2% of the non-institutionalized state population identified as having a disability, compared to 9.3% of the population in the five-county focus area. Mecklenburg County had the smallest share of its total population that identified as having a disability (7.5%) in 2019, while Guilford County had the largest of its population that identified as having a disability (11.8%).

Table 7: Non-Institutionalized Population With a Disability in 2019.

	2019	
	Number	% Total
State of North Carolina	1,359,525	13.2%
Durham County	28,054	8.9%
Forsyth County	44,275	11.7%
Guilford County	62,838	11.8%
Mecklenburg County	83,076	7.5%
Orange County	12,361	8.4%
Balance of State	1,128,921	14.5%

Source: U.S. Census, 2019 American Community Survey 1-Year Estimates. See Appendix E for additional information.

Individuals with disabilities are represented across all age categories. However, older individuals generally had higher rates of individuals with disabilities. Across the state, 47.9% of individuals 75 years and older and 24.5% of individuals 65 to 74 had a disability in 2019. By comparison, the rates were 0.9% for children under 5, 5.7% for individuals 5 to 17, 6.2% for individuals 18 to 34, and 13.5% for those 35 to 64 years of age.

IV. Fair Housing Complaints in North Carolina

The Fair Housing Project analyzed data on all fair housing complaints filed with the United States Department of Housing and Urban Development (HUD) in the State of North Carolina from 2000 to 2019.³¹

a. Statewide Fair Housing Complaint Data, 2000-2019

Statewide, a total of 3,617 fair housing complaints were filed between 2000 and 2019. The average number of complaints filed per year was 180.9, with a high of 255 filed in 2010 and a low of 125 filed in 2017. For statewide complaint data, see Table 9, below.³²

The most common basis of discrimination alleged in complaints during the period 2000-2019 was racial discrimination (1,494, or 41.3%), followed by disability (1,370, or 37.9%), national origin (653, or 18.0%), familial status (503, or 13.9%), and sex (447, or 12.3%).³³

In 2019, a total of 160 fair housing complaints were filed. Over half of these (90 complaints, making up 56.3% of those filed) were filed in just five counties: Durham (26), Mecklenburg (24), Wake (15), Guilford (14), and Forsyth (11). In 34 other counties, there were between 1 and 8 complaints filed, while the remaining 61 counties in North Carolina did not have any fair housing complaints filed in 2019.

The most common bases for complaints filed in 2019 were disability (92 complaints filed or 57.5%), race (53 or 33.1%), national origin (21 or 13.1%), sex (20 or 12.5%), familial status (12 or 7.5%), and retaliation (12 or 7.5%).

³¹ Virtually all fair housing complaints filed with the North Carolina, Durham, Greensboro, Charlotte/Mecklenburg, Orange County, and Winston-Salem agencies are also “dual filed” with HUD. As a result, this data includes the vast majority of complaints filed in the state.

³² Complaint data for Durham, Forsyth, Guilford, Mecklenburg, and Orange Counties, as well as the Balance of State, are in Appendix C.

³³ Because complaints can raise more than one basis of discrimination (such as race and disability), the percentage of complaints by basis is greater than 100%.

Table 9: Number of Fair Housing Complaints from North Carolina Filed with HUD, 2000-2019.

Year	Race	Color	National Origin	Religion	Sex	Disability	Familial Status	Retaliation	Total

b. Fair Housing Complaint Data by County, 2000-2019

The five counties with the most complaints filed were Mecklenburg (627 complaints), Durham (531), Guilford (354), Wake (301), and Forsyth (229). For fair housing complaint data for all 100 counties in North Carolina, see Appendix B.

Table 10: Counties with Most Fair Housing Complaints filed with HUD, 2000-2019.

County	Complaints Filed
Mecklenburg County	627
Durham County	531
Guilford County	354
Wake County	301
Forsyth County	229
Buncombe County	208
Orange County	145
New Hanover County	93
Cumberland County	64
Alamance County	45

Source: FHP analysis of HUD complaint data.

c. Fair Housing Complaint Data by County and Population, 2000-2019

Overall, an average of 39.28 complaints were filed per 100,000 people in North Carolina during the period 2000-2019.³⁴ The five counties with the most complaints filed on a per capita basis were: Durham (196.7 complaints per 100,000 people), Orange (108.4), Buncombe (87.3), Guilford (72.5), and Mecklenburg (68.2).

Table 11: Counties with Most Complaints Filed per County Population, 2000-2019.³⁵

County	Complaints Filed	Complaints/100,000 people	Complaints/100,000 people/year
Durham	531	196.7	9.8
Orange	145	108.4	5.4
Buncombe	208	87.3	4.4
Guilford	354	72.5	3.6

³⁴ Rates calculated with 2010 state and county population, based on U.S. Census Bureau, 2010 Decennial Census.

³⁵ All rates calculated with 2010 county population, based on U.S. Census Bureau, 2010 Decennial Census. Rates for complaints by population per year were divided by the number of years of data (20).

d. Statewide Fair Housing Complaint Data, Trends During the Past 10 Years

Because the number of complaints filed each year sometimes varied by large amounts, the data was analyzed in two five-year periods – 2010-2014 and 2015-2019 – to examine trends in the number of types of complaints filed. This analysis showed that:

- The total number of complaints filed decreased by 19.5%, from 931 filed in 2010-2014 to 749 filed in 2015-2019.
- Most types of fair housing complaint filings decreased from 2010-2014 to 2015-2019, including those alleging discrimination based on race (decreasing from 349 to 239, or 31.5%), national origin (from 203 to 98, or 51.7%), sex (from 108 to 96, or 11.1%), familial status (from 168 to 93, or 44.6%), and retaliation (from 58 to 48, or 17.2%).
- Complaints based on disability increased from 2010-2014 to 2015-2019 (from 329 to 412, or 25.2%), as did those based on color (from 12 to 26, or 116.7%) and religion (from 12 to 20, or 66.7%).

Table 12: Total Number of Fair Housing Complaints Filed by Protected Class.

	Complaints Filed 2010-2014	Complaints Filed 2015-2019	Percent Change
Race	349	239	-31.5%
Color	12	26	116.7%
National Origin	203	98	-51.7%
Religion	12	20	66.7%
Sex	108	96	-11.1%
Disability	329	412	25.2%
Familial Status	168	93	-44.6%
Retaliation	58	48	-17.2%
Total	931	749	-19.5%

Source: FHP analysis of HUD complaint data.

Source: FHP analysis of HUD complaint data.

This analysis also showed that:

- In the period 2010 to 2014, the most common types of discrimination alleged were race (alleged in 37.5% of complaints), disability (35.3%), national origin (21.8%), familial status (18.0%), and sex (11.6%).
- In the period 2015 to 2019, the most common types of discrimination alleged were disability (alleged in 55.0% of complaints), race (31.9%), national origin (13.1%), sex (12.8%), and familial status (12.4%).

Table 13. Percent of Complaints Filed by Protected Class.³⁶

	Complaints Filed 2010-2014	Complaints Filed 2015-2019
Race	37.5%	31.9%
Color	1.3%	3.5%
National Origin	21.8%	13.1%
Religion	1.3%	2.7%
Sex	11.6%	12.8%
Disability	35.3%	55.0%
Familial Status	18.0%	12.4%
Retaliation	6.2%	6.4%

Source: FHP analysis of HUD complaint data.

Source: FHP analysis of HUD complaint data.

³⁶ Because complaints can raise more than one basis of discrimination (such as race and disability), the percentage of complaints by basis is greater than 100%.

V. Recommendations.

Where people live matters – it affects what type of city or neighborhood they live in, the schools their children attend, and their access to transportation, jobs, amenities, and services. Ensuring equal access to housing begins by removing arbitrary barriers – such as those based on race, color, religion, national origin, sex, familial status, or disability – that have and continue to exclude people from housing.

North Carolina’s population is becoming more diverse, and housing discrimination continues to be a systemic issue facing our communities. Complaints alleging disability, race, national origin, familial status and sex discrimination are the most common types seen throughout the state.

There are several steps that communities can take to help accomplish our national and state fair housing goals:

(1) Increase fair housing education for the public, including for housing consumers and housing providers.

While many individuals are generally familiar with the idea that discrimination in housing based on race, national origin, or religion is unlawful, housing consumers, as well as some housing providers, still do not know that discrimination based on familial status or disability are prohibited. The Fair Housing Project regularly receives inquiries about familial status and disability protections, particularly the requirements about reasonable accommodations and reasonable modifications. Organizations should continue supporting fair housing educational initiatives to ensure that North Carolinians are familiar with fair housing rights and responsibilities.

(2) Continue supporting the North Carolina Human Relations Commission and the five “substantially equivalent” local fair housing agencies.

These agencies provide direct support and assistance to the communities they serve, and their employees are members of the very community that they serve. They are a valuable resource for the public at large. These agencies should continue to be supported for their efforts to ensure equal housing opportunities.

(3) Educate government officials, such as planning departments and city councils, about their responsibilities under the FHA, including the obligation to affirmatively further fair housing.

State and local governments that receive Community Development Block Grants (CDBG) and other HUD funding are required to take actions that affirmatively further fair housing. How governments meet this requirement has been the subject of years-long national litigation. Notwithstanding this litigation, governments must take affirmative steps to ensure that the public is aware of fair housing rights and responsibilities, particularly when the government is involved in the process of developing housing.

(4) Increase fair housing enforcement.

Housing discrimination is not always easy to detect. Sometimes the discrimination may be obvious, such as a housing provider making an explicitly discriminatory statement. However, housing discrimination more often occurs in more subtle and less obvious forms. Communities that are interested in ensuring equal housing opportunities for their residents should be encouraged to explore a testing program to ensure that discrimination is detected and deterred. State and local agencies should also pursue strong public interest penalties and other relief when resolving fair housing complaints.

(5) Increase awareness about protections for people with disabilities.

Complaints for disability-based discrimination now outnumber all other types of complaints, accounting for over 55.0% of complaints filed from 2015-2019 and 57.5% of those filed in 2019. The Fair Housing Act protections for people with disabilities are also quite varied, covering not only failing to rent or sell to a person because of their disability but also failing to grant a reasonable accommodation or reasonable modification to a person with a disability and failing to construct multifamily housing consistent with the Fair Housing Act's requirements. The Fair Housing Project continues to uncover newly constructed multifamily housing developments that do not comply with these requirements, an acute problem given the general inaccessibility of most housing for people with mobility impairments or other disabilities. Given the wide scope of this type of discrimination, as well as its prevalence, state and local governments should increase their education and outreach efforts to educate the public about their rights.

Appendix D: Methodology for Calculating Fair Housing Complaint Data

In North Carolina, fair housing cases may be filed with the U.S. Department of Housing and Urban Development (HUD), the North Carolina Human Relations Commission (NCHRC), or sometimes with a local fair housing agency.

The NCHRC, as well as the five “substantially equivalent” local fair housing agencies, have formal agreements with HUD to accept, investigate, and conciliate fair housing complaints. Fair housing complaints filed with HUD are generally referred to the NCHRC or to one of the five substantially equivalent local fair housing agencies for investigation, unless there is a potential conflict of interest or other factor that would preclude the referral. All information related to these cases is entered into the HUD Enforcement Management System (“HEMS”) that is used to track and monitor fair housing complaints. Fair housing complaints that are filed directly with the NCHRC, or with one of the five substantially equivalent local fair housing agencies, and that raise discrimination based on a class protected by the federal and state or local law, are also entered into HEMS.

The complaint data featured in this report was obtained from HUD in April 2018 (2000-2017 data), August 2019 (2018 data), and February 2021 (2019 data).

HUD also classifies some cases as having a basis of “retaliation.” Although retaliation is not a protected class under the federal, state, or local fair housing laws, this report includes a separate category of retaliation since the HUD data distinguishes between “retaliation” and other forms of discrimination.

Data regarding age and veteran status discrimination is not included in this report because these are only protected classes in Orange County, North Carolina. In addition, the report does not include data regarding discrimination based on the siting of affordable housing, which is protected by the North Carolina State Fair Housing Act.

Appendix E: Census Data Sources

This report relies on datasets obtained from the U.S. Census Bureau, including the 2000 U.S. Census, the 2010 U.S. Census, and the 2019 American Community Survey 1-Year Estimates.

The Census Bureau publishes guidelines for comparing different census datasets. While many datasets may be readily compared, some areas and subjects are to be “compared with caution” or “not compared” at all. Comparability guidelines are needed due to differences in question wording, reference periods, methodology, and the way in which the census tabulates data.

The following identifies the sources for the tables featured in this report and includes comparability guidelines obtained from the Census Bureau. Additional information is available at <https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data.html>.

Table 1: Total Population of North Carolina. Source: U.S. Census Bureau, 2000 Census Summary File 1 (SF1) 100-Percent Data, Table P001, Total Population; 2010 Census Summary File 1, Table P1, Total Population; 2019 American Community Survey 1-Year Estimates, Table B01003, Total Population.

Table 2: Race of Population of North Carolina. Source: U.S. Census Bureau, 2000 Census Summary File 1 (SF1) 100-Percent Data, Table P003, Race; 2010 Census Summary File 1, Table P3, Race; 2019 American Community Survey 1-Year Estimates, Table B02001, Race.

- 2019 American Community Survey with 2010 Census (Race): *Compare*
- 2019 American Community Survey with 2000 Census (Race): *Compare with Caution*

Table 3: Hispanic or Latino/a Population. Source: Source: U.S. Census Bureau, 2000 Census Summary File 1, Table QT-P3, Race and Hispanic or Latino; 2010 Census Summary File 1, Table P4, Hispanic or Latino Origin; 2019 American Community Survey 1-Year Estimates, Table B03003, Hispanic or Latino Origin.

- 2019 ACS with 2010 Census (Hispanic or Latino Origin): *Compare*
- 2019 ACS with Census 2000 (Hispanic or Latino Origin): *Compare with Caution*

Table 4: Percent of Population that is Foreign Born. Source: U.S. Census, 2000 Census, Summary File 3, Table DP-2, Profile of Selected Social Characteristics; 2010 American Community Survey 1-Year Estimates, Table B05012, Nativity in the United States; 2019 American Community Survey 1-Year Estimates, Table B05012, Nativity in the United States.

- 2019 ACS 1-Year with 2010 ACS 1-Year (Nativity): *Compare*
- 2019 ACS with Census 2000 (Nativity): *Compare*

Table 5. Percent of Population 5 Years and Older that is Limited English Proficient. Source: U.S. Census, 2000 Census, Summary File 3, Table DP-2, Profile of Selected Social Characteristics;

2010 American Community Survey 1-Year Estimates, Table DP02, Selected Social Characteristics; 2019 American Community Survey 1-Year Estimates, Table DP02, Selected Social Characteristics.

- 2019 ACS 1-Year with 2010 ACS 1-Year (Ability to Speak English): *Compare with Caution*
- 2019 ACS with Census 2000 (Ability to Speak English): *Compare*

Table 6: Households with Individuals Under 18 Years of Age. Source: U.S. Census Bureau, 2000 Census Summary File 1, Table P019, Households by Presence of People under 18 Years by Household Type; 2010 Census Summary File 1, Table P20, Households by Presence of People under 18 Years by Household Type by Age of People Under 18 Years; 2019 American Community Survey 1-Year Estimates, Table B11005 Households by Presence of People Under 18 Years by Household Type.

Table 7: Population with a Disability in 2018. Source: U.S. Census, 2019 American Community Survey 1-Year Estimates, Table DP02, Selected Social Characteristics in the United States.

Table 8: Population with a Disability in 2018 by Age. Source: U.S. Census, 2019 American Community Survey 1-Year Estimates, Table S1810, Disability Characteristics.

Tables 14-19. Source: U.S. Census Bureau, 2000 Census Summary File 1 (SF1) 100-Percent Data, Table P003, Race; 2010 Census Summary File 1, Table P3, Race; 2019 American Community Survey 1-Year Estimates, Table B02001, Race.

- 2019 American Community Survey with 2010 Census (Race): *Compare*
- 2019 American Community Survey with 2000 Census (Race): *Compare with Caution*
